## 1.0: AKWAABA!

---

The CDC Learning Centre exists to bridge the gap between knowledge and practice in the business environment through the provision of practical and informative training and capacity building for businesses in Ghana and the West African sub-region.

Our values of continuous improvement and personal development drive our belief that all professionals must continuously and intentionally improve their professional competencies to excel in their fields of work.

To this end, we deliver courses that aim to increase productivity of employees or staff in institutions; equip leaders with the needed skills for strategic management and build the capacity of staff and management.

The CDC Learning Centre runs open-house, in-house and online courses to suit the specific needs of our clients. We take into recognition that our participants are adults, and therefore we design our courses with adult learning techniques.

The CDC Learning Centre provides training materials, workbooks and makes use of digitalised training assessments and evaluations. Our trainers are well vested in knowledge and cut across various sectors and are impacting lives, one training at a time.

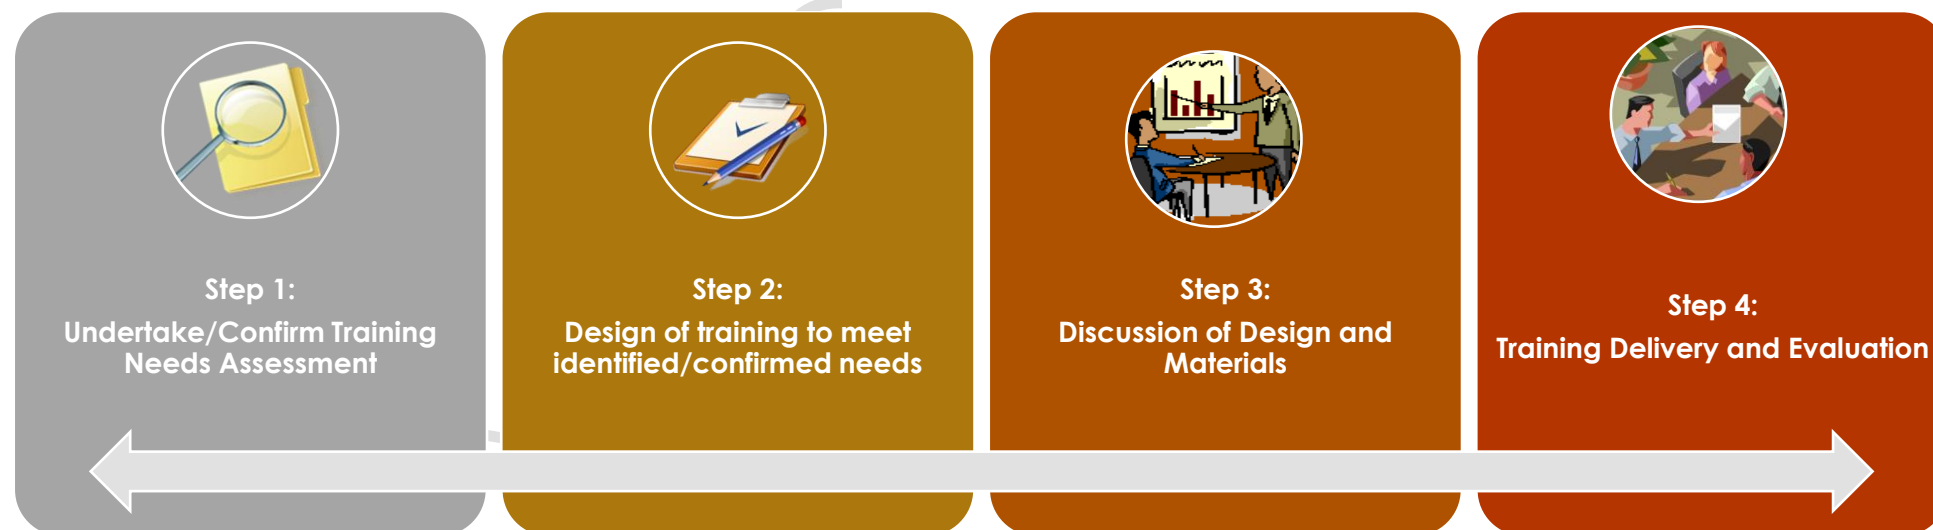

## 1.1 OUR GUIDING PRINCIPLES

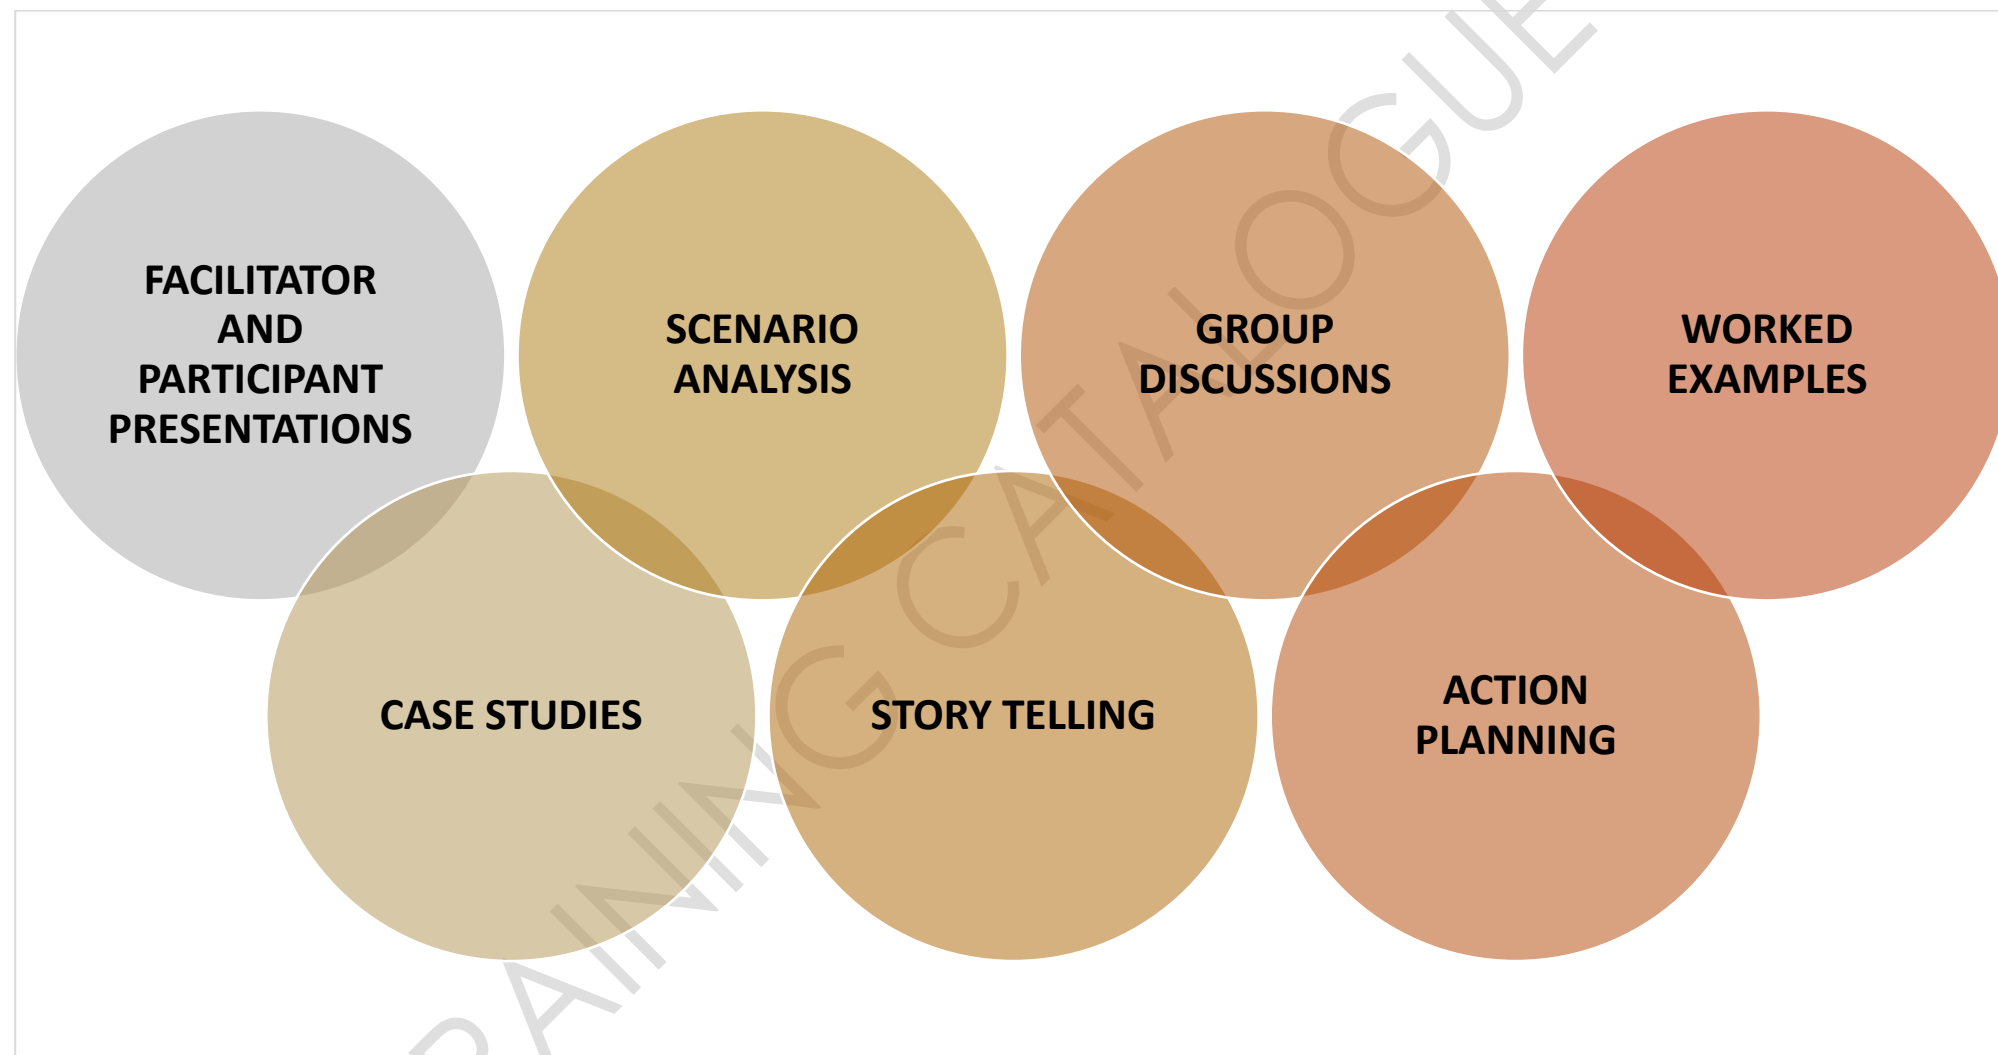

At the CDC Learning Centre, all training programmes are developed with a set of principles. Core among these principles is the following:

Attention to Adult Learning Principles	Adoption of Participatory Approach	Attention to Existing Practices	Development of User Friendly Hand-outs
<ul style="list-style-type: none"><li>•We recognize that as adults, our participants have unique ways of learning. To ensure that the training is effective and yields the desired results, we incorporate adult learning principles in all our training programmes.</li></ul>	<ul style="list-style-type: none"><li>•This approach involves the use of case studies; role play and general discussions as basic methodologies for training. This approach also places emphasis on participants' experiences obtained from working in their respective institutions. <b>(see learning methods to be adopted below).</b></li></ul>	<ul style="list-style-type: none"><li>•Deriving from our experience, each institution has some form of existing practices relating to the topic being treated. As part of our approach we review these practices as basis for providing good practices that work.</li></ul>	<ul style="list-style-type: none"><li>•The development and use of simple and user friendly participants' hand-outs have helped in training assignments. During training, we design and develop a combination of participants' hand-outs, templates (where necessary) and presentation slides that serve as easy reference material for use by participants after each training sessions.</li></ul>

Our approach on each training assignment comprises four (4) key activities aimed at achieving the goal of the training intervention. The steps are presented:

**Learning Methods to adopted:** Given that adults have various learning styles, we adopt a mix of training and learning methods aimed at achieving training objectives. The specifics are presented.

## 2.0: SECTOR-BASED TRAINING COURSES

### 2.1 FINANCIAL SECTOR COURSES

### 3.0: FLAGSHIP PRODUCTS

CDC prides itself in its flagship products designed to provide solutions to clients. Our products, cutting across all organisational needs are presented:

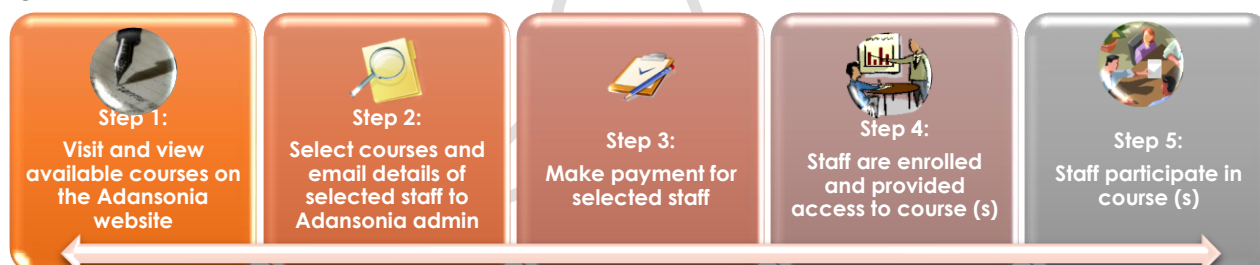

#### 3.1 ADANSONIA – OUR E-LEARNING OFFERING

Adansonia is an E-Learning platform designed to provide professionals, a one stop shop for personal and professional development with a bouquet of courses classified under various sectors. These categories are further broken down or classified under Productivity, Managerial, Functional/Technical, Soft and Life Skills and General courses. Courses available on the platform are rich with information, videos, audios, PowerPoint presentations, activities and handouts and tests to aid in the learners' full grasp of the courses.

The product offers both self-paced and timed courses as well as pre-recorded and live courses. The product allows employers to browse, pay for and sign employees up for courses and allows professionals to browse, pay for and sign up for an unlimited number of courses. With our integrated payment systems, users can sign up and make payment for courses using payment options like MoMo, Debit Cards, and Express Pay/Slide Pay.

Adansonia adopts the use of Adult Learning Principles and the use of multiple methods to ensure that the various types of learning styles are met. The self-paced courses on Adansonia afford learners the flexibility of logging onto and participating in courses at any time in the day and completing courses at their own pace. Presented below is the detailed approach for Adansonia. Presented in **Figure 1** presents the detailed approach for Adansonia.

**Figure 1: Detailed Approach for Adansonia**

##### 3.1.1 Adansonia's Packages

Adansonia's offering include the following packages:

- **Customized Course Hosting Management Services:** This service allows the company to develop and customize its exclusive training programmes and develop courses to be hosted and delivered through Adansonia for staff to sign on and participate or learn. These courses can be recorded by the company's selected facilitators. Additionally, CDC Consult, working with the company, can develop and record the company's preferred courses on the Adansonia eLearning platform.
- **General Subscription to Adansonia Courses:** Adansonia offers annual subscription to corporate institutions to choose from available courses on the eLearning platform. Courses available on the platform are categorized into five (5), namely technical/functional, managerial, productivity, social and life skills, and digital transformation courses. These courses are recorded by CDC Consult's consultants and are generally available to all businesses.

**Visit our website at [www.adansonia.org](http://www.adansonia.org)**

The course focuses on supporting new entrants transition into the working environment by equipping them with values, skills, and tools that would enable them to exhibit the right behaviours and attitudes to succeed as professionals, preparing them to identify and take on opportunities at the highest levels of an organisation. **Figure 6** presents a description of the programme.

**Figure 6: Developing Young Professionals (DYP) Programme Description**

### 3.7 THE CREDIT MASTERCLASS PROGRAMME

The Credit Masterclass is an intensive training programme targeted at credit professionals in financial services institutions irrespective of their experience in credit. The programme provides a mind broadening approach to credit management and delivery, adopts a holistic, practical and tool-based approach to address real institutional and market challenges faced by credit professionals in their line of work. The programme is designed to ensure effective development of credit with credit risk best practices that secures the bottom-line of the business. **Table 1** presents a description of the programme.

**Table 1: Credit Masterclass Programme Description**

Modules	Course Overview	Course Duration
Core Competencies for the Credit Professional	The credit portfolio remains one of the largest assets of financial institutions. This requires a specific set of management capabilities to assure growth and high returns. Unfortunately, there is a challenge of inadequate appreciation of the core competencies (knowledge skills and attitude) expected of credit professionals. This course is designed to expose participants to the core competencies of a credit professional required to effectively ensure growth and manage the loan portfolio of a financial institution, while creating value.	4 hours
The Regulatory Framework and Credit Risk Management	Financial intermediation by its very nature is a risky business faced with a range of interacting risks in a regulatory environment. The regulatory and supervisory environment has also seen increased and strict compliance requirements over the past few years creating the need for credit professional to stay abreast with happenings in their sector. The course is designed to support credit professionals to be aware of their existing regulatory framework and to be able to manage inherent risk as a result of loan portfolio growth and other credit uncertainties.	8 hours
Diagnosing the Credit Health of your Institutions' Loan Portfolio	Credit remains a major source of income for financial institutions as the loan portfolio remains that heart of financial institution. A healthy loan portfolio is a key driver of profitability and sustainability of every lending institution. The course is designed to empower the use of standard tools and techniques to identify gaps in their respective institutional credit management practices and select from a range of prescriptions approaches that can be modified to address challenges in the loan portfolio.	8 hours
Credit Product Development and Refinement	Developing new products is a risky endeavor, but it is certainly necessary for the growth and survival of financial service providers. More importantly, developing new products is generally a team effort that requires the input of a variety of team members with a variety of interests, talents and skills of which credit professionals play a key role.	8 hours

Modules	Course Overview	Course Duration
	Developing credit products is not a simple linear process as it may seem. It will require close examination and comparison of what the clients want with what financial institutions can profitably deliver. This course is designed to support credit professionals play a pivotal role in product development and refinement processes in their institutions. The course would support credit professional to develop plans on how to research, design, cost, price, test and roll out new and refined products for their financial institutions.	
The Credit Manager: Establishing a Robust Credit Management System	This course is designed to support credit professional establish robust credit management structure and systems into their daily operations of lending. Using very practical cases, tools and techniques, participants will be introduced to the foundations for effective credit management systems development as well as building a sustained credit management culture that facilitates profitability and sustainability.	4 hours
The Effective Lending Process	<p>Instituting an effective lending process has become a major issue for financial institution delivering credit. Given the desire of most financial institution to expand their outreach, there is need for a well-managed credit delivery process that ensures the business does not fail. The course provides a strong foundation for understanding the various requirement in establishing an effective lending process, streamlining existing processes as well as how the lending process can be organized to facilitate achieving both financial and social objectives. The specific topics to be addressed include:</p> <ul style="list-style-type: none"> <li>• Market Identification</li> <li>• Loan Promotion</li> <li>• Client Selection</li> <li>• Credit Appraisal</li> <li>• Credit Approval</li> <li>• Credit Documentation</li> <li>• Credit Disbursement</li> <li>• Credit Monitoring</li> <li>• Credit Recovery</li> <li>• Credit Portfolio Reporting</li> <li>• Credit Decision and Strategy Formulation</li> <li>• Credit Delivery via Digital Platforms</li> </ul>	16 hours
